

1 Day Workshop

# Ideation: Innovation from Skill Gaps and Risk

*Ideation is a full day, innovation workshop that will change how participants view skill gaps and risk to identify new business opportunities.*

## 1 Day Workshop

*Ideation is designed to identify high value ideas for your organisation that come from where you least expect it – skill gaps and risk.*

*This workshop eliminates the problem of not knowing where to start by scoping a personalised innovation capability review and plan.*

### Why Is This Different?

It allows participants to use their imagination and creativity to generate ideas and real solutions to what is viewed as negative. And be more innovative and forward thinking in the process.

### Who Is It For?

**This workshop is for:**

- > Middle/Upper Management - the employees who are in-touch with the real business operations.
- > Organisations that are NOT in crisis mode - they have the resources to be proactive and prepared for the future. They know it's important to stay ahead of the game and invest in being prepared.

### Why Engage Kiikstart to Deliver the Workshop?

- > You or your organisation want a facilitator who can assist you in designing the future so you aren't disrupted by it.
- > You want to be prepared for uncertainty by having new ideas, innovation, different perspectives and an adaptable workplace.
- > You are ready to do something different because you want different outcomes.

### What Can You Expect?

The workshop gives participants the permission to be creative and open up their minds to 'what if'. It allows a safe environment for honesty and openness about what the real risks of the organisation are. It shifts the way risks are viewed and expands creative problem solving skills.

The workshop also provides senior management invaluable insights to better understand real risks that they may not have identified.

### What Will Be Created from the Workshop?

As a result of working together each person or organisation will commence designing their own innovation capability review and plan.

They will have the insights and skills needed to scope this fully when returning to the workplace and the actions to make it a reality.

### Cost

#### PERSONALISED 1:1

\$1500\*

#### IN-HOUSE

\$5,000\* > 10 - 12 participants

\*Prices exclusive of GST.

### Workshop Schedule

#### CHANGE > 9am - 10:30am

How to prepare for the unknown? What is the unknown?

#### IDENTIFY > 10:45am - 12:30pm

What are the real risks for your organisation? What are 'positive' and 'negative' risks?

#### LUNCH

#### IMAGINE > 1:00pm - 2:30pm

What if you could make a change. What risk would drive your change? What would the organisation look like after the change?

#### CREATE > 2:45pm - 4:30pm

You have permission and resources to create a solution, what would it be?

#### Q&A SESSION > 4:30pm - Close
